ARCHITECTS' and ENGINEERS' SPECIFICATIONS

The Rear-Loading Horizontal mail boxes shall be Alpha Communications®/Florence 1500 series, or approved equal. Mail boxes shall be constructed of extruded aluminum, with smooth finish. Mail boxes (and all related accessories) shall be finished in (Nat. Anodized Aluminum or Gold Anodized Aluminum or Duranodic finish). Contractor shall provide any key keepers and (D400 series) alphabetical directories as required for a proper installation, in a matching finish to the mail boxes.

Mail box compartments shall have permanently engraved door numbers, and each compartment shall be provided with a 5-pin cylinder lock, with 2 keys per lock. Locks shall be available with a minimum of 1,000 possible key combinations. Optional rear covers shall be available at extra cost.

Contractor shall install as per U.S. Postal Service regulations.

PLEASE NOTE: As of 10/05/2006 the 1500 series mailboxes are no longer USPS Approved for new installations, or for "major renovations". They can only be installed as direct replacements for previous 1500 series mailboxes that need to be replaced.

1500 Series Horizontal Style Mail Boxes

The Alpha Communications® 1500 series rear-loading horizontal style mail boxes can be used in almost any size multi-residential building with (15) or more mail receiving tenants. They are available in configurations of five (5) to seven (7) compartments high, and three (3) to five (5) compartments wide, in each unit.

All compartment doors come equipped with 5-pin cylinder locks with 2 keys per lock. 1,000 key combinations are provided to avoid possible duplication, and to maintain security.

These boxes are designed to be fully recessed into an 18" deep wall, and are open in the back, to allow insertion of mail by the letter carrier. Optional rear covers are available to prevent the tenant from accidentally pushing mail out the back, when retrieving mail.

Choose from standard finishes of Natural Anodized Aluminum or Gold Anodized Aluminum. Duranodic (Bronze) finish is available at extra cost, all on a special-order basis. Matching key keepers and (D400 series) alphabetical directories are also available to complete your mail box installation.
