VANDAL SECURITY AUDIO AND AUDIO-VIDEO ENTRY PANELS

The Elvox® 3200 Series Vandal Security Panels are designed to be durable and aesthetically pleasing. The 3200 Series is modular allowing components to be combined horizontally or vertically to create audio or audio-video panels of virtually any size. Constructed of bronze painted cast aluminum, the 3200 Series is rated to the international IP45 vandal-resistance rating. A built in backlit name tag is provided with each apartment ring push-button. The panels accepted either the 930 Series speaker mics or the 554 series Camera/speaker/mic modules. Optional recess mounted backboxes (320S) or surface boxes with rain hood (320P, 322P, 323P) address

General Information

- Vandal resistant IP45 rated
- Recess mount with 320S backbox
- Surface mount with 320P, 322P, 323P back-box/rainhoods
- Stainless steel apartment push-button switches.
- Backlit push-button name tags
- 320S backboxes can be ganged together vertically and horizontally to build large panels
- Bronze painted cast aluminum construction
- Accepts 930 series speaker mic allowing use with all Elvox audio systems
- Accepts 554 Series Camera with speaker/mic allowing use

Specifications

Call Origination:	Stainless steel switches
Speaker/Mic:	930 Series
Camera:	554 Series
Push-buttons:	Vandal resistant solid push-buttons.
Mounting:	
with 320s	Recess Mounted 1.75" Recess Depth)
with 320P, 322P, 323P	Surface mount
Construction	Cast Aluminum painted bronze
Directory	Lexan covered backlighting name tag
Camera Aperture:	Clear lexan window with frosted diffuser for infrared illuminators
Dimensions:	
All Modules	4.75" W x 11"H x .75"D
320S	4.5"W x 10.5"H x 1.75"D
320P	5.25"W x 11.5"H x 4"D
322P	9.75"W x 11.5"H x 4"D
323P	14.5"W x 11.5"H x 4"D
